

Each of us puts in one little stone, and then you get a great mosaic at the end.”

This quote by Alice Paul defines how SE Works has come together to serve our community - each person, volunteer, employee, customer, funder and donor puts in “one little stone” and we end up with the mosaic called SE Works.

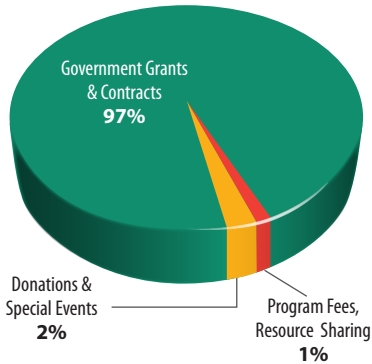

The 2009-2010 program years tested our resilience, the death of our beloved Executive Director and founder Heidi Soderberg in April 2010 made us all feel like the mosaic we had created would shatter. Board, Staff and friends stepped up to the plate and we became the grout that held our mosaic together.

We have weathered death and funding reductions without losing one employee; planned, developed, and in October moved to our new facility on SE Foster. We’ve served thousands of customers and brokered new partnerships to deliver high quality services and programs. It has been a bittersweet year to remember and thankfully we arrived at a place where all the little stones are still in place.

- Holly Whittleton, SE Works Executive Director

The mosaics in this report were created by the youth in our Youth Center, Alternative Education Program.

www.seworks.org

On November 29, 2010 friends of SE Works helped us usher in a new era by celebrating the grand opening of our beautiful new facility. Located on SE Foster Road, the new site is 10, 800 sq. ft. and will help to serve thousands of customers each year. In February, after 4 years of being apart, the Reentry Employment Center was also relocated to the same location. We are happy to say that we are now all under one roof.

We are proud to announce that in October SE Works held one of it's highest grossing auctions. Raising funds that will help us to continue serving SE Portland and surrounding communities.
